

## Team Project: Prototype Demo and Sources

Team Benz

CSCI375

April 2, 2018

### **Project Update**

Update on the current state of the project:

- What features were completed
  - Search, View, List Ideas are completed.
- What features were not completed:
  - Still testing and fixing Create and Edit features.
- Assessment of the work remaining to be done, and its degree of difficulty:
  - Basically done the Create page just minor and easy fixes.
  - Need around 4 hours to complete the edit feature. Not a difficult task now that everything else is technically done and having the experience needed. Just might end up spending more time on testing if it doesn't go as planned.
